Using Converter Standalone with Virtual Machine Sources 15, the supported destination types are Workstation 10.0 and later, ESXi 5.5 and later, and. Hello friends, how are you? I'm trying to convert a physical machine with Redhat 3 have the latest version of VMware vCenter Converter (5.5.3). We are trying to manually setup a VM Converter(VMware) in our lab, but struggling to find documentation that can guide us to the solution. Can someone throw some light in how to achieve this? We are using Redhat 5/RHEL 5.3. All client PCs have VMware 5.5.0 installed. A: I have tried to convert from Workstation using Converter Standalone and it works. Manufacturer: Fantasy Flight Games Keywords: L.A.-Asper - Lights Asperges Pictures: "White dappled the rooftops. The sky was a dim, soft blue, dotted with wisps of white vapor. In the distance, the city's spires rose against the yellow sky, while the roof tops of its lesser towers were in shadow. The spires of the great Saint's Cathedral towered above them all, framed by a mass of white, olive, and gold trimmings. Little plumes of steam rose from the copper domes of the Saint's Cathedral, and the great bell tolled, and the streets outside echoed."
